## Scooter® TM 1800 Euro

*Excitement Says It All*

The flexibility of the Majestic Scooter® Series has proven itself a winner in the entertainment field. The addition of more flash and color gives the TM 1800 Euro Style all the flair and excitement of its European influence. These new units are specifically designed for portability and easy installation.

Space limitations have created a need for more compactness and added portability in the entertainment ride field. The TM 1800 Euro Scooter® Building is designed to fill that need. It's construction is 80% aluminum which reduces maintenance costs. Installation and set up time can be accomplished by 3 people in 2½ to 3 hours. Along with the addition of a tandem axle, each unit is equipped with maxi trailer brakes for added safety. These attractive units are manufactured in the United States by Majestic Manufacturing, Inc.
